

ACGME REQUIREMENTS MET WITH RESIDENCY ESSENTIALS

ACGME section	ACGME requirement	Residency Essentials section
II.B.2.I)	Faculty members must provide didactic teaching and direct supervision of resident performance in peri-procedural patient management, and of the procedural, interpretative and consultative aspects of interventional radiology.	Residency Essentials provides the content needed for required didactic teaching.
IV.A.4)	The curriculum must contain a broad range of structured didactic activities	Partially fulfilled: Residency Essentials provides the platform for residents to review and learn from didactic education.
IV.A.6)	Advancement in the residents' knowledge of the basic principles of scientific inquiry, including how research is designed, conducted, evaluated, explained to patients, and applied to patient care	Partially fulfilled: Requisite Knowledge: Research and Statistics
IV.B)	ACGME competencies	
IV.B.1	The program must integrate the following ACGME competencies into the curriculum:	
IV.B.1.a	Professionalism	
IV.B.1.a(1).(c)	Respect for patient privacy and autonomy	Fulfilled: Requisite Knowledge: Patient Rights (section 5.c)
IV.B.1.a).(1).(e)	Respect and responsiveness to diverse patient populations, including but not limited to diversity in gender, age, culture, race, religion, disabilities, national origin, socioeconomic status and sexual orientation;	Fulfilled: Requisite Knowledge: Systems (section 5)
IV.B.1.a).(1).(f)	Ability to recognize and develop a plan for one's own personal and professional well-being;	Fulfilled: Requisite Knowledge: Physician Wellness and Development

ACGME REQUIREMENTS MET WITH RESIDENCY ESSENTIALS

ACGME section	ACGME requirement	Residency Essentials section
IV.B.1.b	Patient care and procedural skills	
IV.B.1.b).(1).(a)	Residents must competently perform the following under close, graded responsibility and supervision	Fulfilled: All sections are covered throughout the program. This provides the knowledge which will complement the hands-on instruction.
IV.B.1.b).(1).(b)	Residents must demonstrate the ability to interpret imaging appropriate for their educational level, including demonstration of competence	Fulfilled: All sections are covered throughout the program. This provides the knowledge which will complement the hands-on instruction.
IV.B.1.b).(2)	Residents must be able to perform all medical, diagnostic and surgical procedures considered essential for the area of practice.	Fulfilled: Sections b).(2)(a) – b).(2)(g) are covered throughout the program. This provides the knowledge which will complement the hands-on instruction. Exception: IV.B.1.b).(2).(f).(i): (i)(a)-(c) – speaks to participation in a minimum of 1000 invasive.
IV.B.1.c	Medical knowledge	Fulfilled: All sections are covered throughout the program. This provides the knowledge which will complement the hands-on instruction. Exception: IV.B.1.c).(2): Integrated Programs – Diagnostic Radiology
IV.B.1.f	Systems-based practice	Fulfilled: All sections are covered throughout the program. This provides the knowledge which will complement the hands-on instruction.
IV.C	Curriculum organization and resident Experiences	
IV.C.3	Didactic curriculum	
IV.C.3.a	The core didactic curriculum must be documented	Fulfilled: Learning Center portal
IV.C.3.b	The core didactic curriculum must include the following core content areas of interventional radiology	Fulfilled: All sections are covered throughout the program. This provides the knowledge which will complement the hands-on instruction.
